Hardik Shiromani

Ujjain, Madhya Pradesh hardikshiromani786@gmail.com 7648685553 LinkedIn Github Portfolio

Summary:-

Full-stack developer with hands-on project experience building and maintaining production web applications using React.js, Next.js, Node.js, Express.js, and MySQL. Experienced in developing real-time applications, file-processing platforms, and SEO-driven web products, with exposure to AWS, Docker, REST APIs, and Google Search Console. Strong foundation in problem-solving and software development, with a focus on building reliable and user-focused applications.

Education:-

- Bachelor In Computer Application 2022-2025

Indira Gandhi National Open University

- ITI Diploma in COPA (Computer Operator & Programming Assistant) 2021-2022

Govt. ITI Ujjain

Independent Products:-

DocuBlitz — Online Image & PDF Tools Platform · *Live*

Tech Stack:- ***Next.js, React.js, Node.js, Express.js, Tailwind CSS, Ghostscript, AWS, Docker***

- Built and deployed a full-stack file-processing platform featuring 5+ tools for image and PDF compression, conversion, merging, and splitting.
- Implemented Ghostscript-based PDF compression and optimized production file processing through performance testing and resource optimization.
- Optimized file-processing performance and resource usage to address production constraints.
- Deployed and maintained the application using AWS, Docker, and CloudFront; troubleshot production issues affecting file-processing functionality.
- Designed file upload, processing, and download workflows to support multiple document and image operations while handling production resource constraints.

IGNameCraft — Instagram Username Generator · *Live*

Tech stack:-*Next js, Tailwind css , Javascript*

- Developed and deployed an Instagram username generator on a custom domain, supporting multiple username styles and personal or business use cases.
- Implemented technical SEO, sitemap configuration, and Google Search Console integration
- Built a responsive user interface using Tailwind CSS and integrated username availability checking.
- Generated 1k+ Google Search impressions across 68 countries through technical SEO, sitemap optimization, and ongoing indexing improvements.

Projects:-

ChatWorld — Real-Time Chat Web Application · *Live*

Tech stack:- React.js, Node.js, Express.js, Socket.IO, MySQL, Sequelize, Firebase, JWT

- Developed a real-time chat application supporting one-to-one and group messaging using Socket.IO.
- Built REST APIs for user profile management and CRUD operations, with MySQL and Sequelize for database management.
- Implemented backend authentication workflows and integrated Firebase services for authentication-related functionality and notifications.
- Designed a responsive interface for mobile and desktop devices and worked on media-handling integration using Multer and Cloudinary.
